Digital Submission:

It is essential that the digital images of your artwork are of the highest professional quality. Each application requires three separate digital files of three different artworks.

Each digital file must be prepared for submission as follows:

• **Image size:** Using an image-editing program, such as Adobe Elements™ resize your digital file to 750 Pixels (5 inches) **width** for the longest side of horizontal artwork or 750 Pixels (5 inches) **height** for vertical artwork.

• **150 dpi** resolution (dpi stands for dots per inch and is interchangeable in most cases with pixels per inch).

• **Title** the Image files with your last name and 1 (for left) 2 (middle) or 3 (right) – this lets the facilitator know what sequence to place your images (no text on the actual image).

• **Save** in the JPEG format at maximum with a RGB color setting.

• **Burn** the three separate images to a CD, label the CD with your name and medium and submit with your application (use separate applications for each medium).

CD submissions become the property of the Festival of Arts and will not be returned.
